residents object to carrying out this, order lest, in the event of a war between

Russia and Japan, they may be mistaken

Many explanations have been offered

as to why the third finger of the left hand

should be chosen by all British brides to

bear the wedding ring : but most probably

it is solely a matter of numerical order,

being a relic of the old marriage ceremony,

in which the bridegroom, taking the ring.

B. 19 ROTARY DUPLICATOR.

Has achieved a success unequalled by any other Rotary Duplicator. This is due simplicity of working and the excellence of fitting of the parts. It has caused a cumplete revolution in Duplicating, and the production of perfect copies by the Rotary-Machine From a well written original any boy can make thousands of copies on any parish

and each one will be perfect. There is absolutely nothing to go out of order, and the apparatus is always really There is a mechanical device which allows the copy to be made in any position care

The pressure-roller is regulated by a simple lever, and the arrangement is so made:
that it is impossible for the operator to have difficulty with his work The printing cylinder is genred so that one turn of the handle makes a copy. A most important advantage ELLAMS B 19 possesses is that the ink never

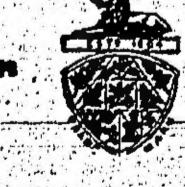

drips and rups all over the Duplicator as on other Machines. The ink never dries on the roller or pade, and copies can be made on any kind and paper. Moreover, this ink does not stam the hands in any way-There is no peculiar or complicated fastening of the scencil-sheet to the Duplicate . The ELLAMS 'B' 19' Duplicator is so absolutely simple that it requires experience whatever to produce perfect copies from it-there is no calculation

The Machine is fitted with an automatic Copy-counter recording instantly the terms number of copies taken. We stock three different kinds of this Duplicator 1-For deplicating typewritten dicuments Price

2-For duplicating both type and handwritten ducuments ... 3-For duplicating both type and handwritten documents with self-feeding attachment Complete with all supplies ready for immediate usu.

Considering the excellent workmanship of the apparatus, the prices are reasonable and compare most favourably with any Duplicator on the market. We quarantee that the Blachines will give complete satisfaction. SIEMSSEN & Co.

FOR SCROFULA This Lady in Burma could not "get Cured until Dr Williams' Pink Pills purified her Blood, build up her Strongth and" made her Well.

A LWAYS sickly fom childhood, I was
Al. weak and undeveloped when I
entered my 'teens'," says Mrs T. Thompeon, wife of the Special Plague officer at
Prom., Burma. "At the age of seventeen,
when most young women are enjoying life
o the full, fainting fits and

Attacks of Hysteria were of almost daily occurrence. I had the most careful nursing, but as time went on did not improve. Instead my ankles swelled, my joints were

Racked with Rheumatic Pains which during the rains became so bad that l was laid up with them, and Headaches and Neuralgia added to my misery. "Then my skin ulcerated, and the glands of my neck became stiff and inflamed. The doctor said that "

This was Scrofula and sent me to the Lady Dufferin Hospital where I remained for two months. But a fortnight after my discharge from the hospital the scree broke out again worse than pefore. Oh! I cannot tell. you the awful pains I suffered from this Scrofula. On four occasions the glands of my neck wer cut, and these operations were performed

Without Chloroform because my heart was so weak that the doctors would not risk giving me an annesthetic. After the operations I was sent home, but in a wretchedly pitiable

"It was to my husband that I owe the fact that at last I tried Dr Williams' Pink Villa for Pale People. After the first few bottles of these Fills

I Began to Eat Well and felt a general improvement in my health. Slowly but surely the rhoumatic pains disappeared, my nerves became invigorated, I put on flesh, and

The Ulcers Healed cannot praise Dr Williams' Pink Pills sufficiently for the cure they have wrought in my case. Thanks to them, excepting for four large scars upon my neck, I look as though I had never known a day's illness in my life. Mrs Thompson, whose full address is 7, High Street, Prome, Burma, is but one of may thousands of victims to maladies arising out of vitiated condition of the blood who have been restored to complete health by Dr Williams' Pink Pills for Pale People. The reputation of this great Blood and Nervo Tonic as a remedy for Anaemia. Malaria, Indigestion, Debility, Rheumatism, Skin Disorders, and the special Ailments of ladies is world-wide. SINGAPORE ELECTRIC " TRAMWAYS.

The report of the Singapore Electric Tramways for 1911 shows an excess of revenue over expenditure of \$32,970, the profit for the year, after charging debenture appearance. nterest, depreciation, and royalty paid. being £5,055. Compared with "the year 1910 tramway revenue shows an increase of £ ',053. Notwithstanding that the company has during the past three years made a net profit of £7,034, the possibility of the payment of regular dividends on the present capital is rather remote. In the opinion of the Board the tramway undertaking stands at too high a figure in the ooks of the company. The directors recently instructed the general manager, Mr J. H. Garratt, to make a valuation of the company's tramway undertaking and plent, and this valuation Mr Garratt reports by cable to be £425,000. In view of this the Board recommends that the 400,000 shares be reduced from £1 to to 84, 6d. each.

ARTISTS' REYEL.

Cardens."

"The 'Artists' Revel " was a fitting title for the gay function which took place abothe Royal Botanie Gardens on June 19, when the art students of London held a grand costume ball.

The whole of the grounds were illuminated with fairy lamps and Chinese lanterns, and, thronged with a crowd of over Hengkong, Jone 7, 1910, 800 people dressed in a dazzling pariety of costumes, presented a spectacle which rivalled that to be seen at any of the

great art balls in Paris. The grand entrance took place at halfpast ten, when a cavalcade, headed by a baby elephant bearing Miss Gladys Baly, the organiser, in a gorgeous costume of which sweeping peacock feathers were the all-dominating feature, marched round the grounds and entered the great conservatory. The baby elephant was followed by two nobly caparisoned steeds, one bearing a magnificently dressed Earl of Essex and the other a gentleman of the Georgian period. They were followed by an almost endless line of donkey carts driven by gentlemen in velvet cords and pearlies, with wonderfully dressed

women as passengers. Then there were Rosenkavaliers i abundance; Mephistopheles shot up simultaneously in half a dozen different places, with cowboys and guardamen; while Mr. Roosevelt and Saladin appeared and disappeared among the swirl of

crinolines. The scene at dawn, when the breaking daylight revealed the lawns dotted with the hundreds of quaint and gorgeous costumes, was beautiful in the extreme-And at dawn it was that the final frolic took place. The baby elephant, looking amazed and a little indignant, was placed in the middle of a stretch of green, and then a great circle of dancers danced whirling ring-a-ring of roses round and

EDINBURGIE, June 24. THE GOLFING SEASON-PROFESSIONAL * INTERNATIONAL.

At the present moment, the one subjeet of interest in Scotland-indeed, the one subject of importance-is gelf and the Open Championship. To parody Danton's purase it is golf, and still more goif, and always golf. This letter, which of the next six holes. Bunkered of hi purports to be a reflection of Scotland from week to week, must therefore deal with golf, all other matters being merely

The play is at Mürfield,-the " watter meedy," as Andrew, Kirkenldy once contemptuously called it,-but, the famous St. Andrew's professional notwithstanding, the course of the Hon. Company of Edinburgh golfers provides as fine a test of all-round golf as is to be found in the kingdom. The curtain raiser was the International match, in which teams of twelve professionals representing England and Scotland competed. Both singles and foursomes were engaged in, and the result was a draw in both, five matches meh in the singles, one being drawn, and three each in the foursomes. The result was therefore eight matches each. The conditions were favourable to good scoring, the ground being moist, though not heavy, and the air perfectly still. At the fifth, 470 yards, Vardon and Braid each reached the green in two; later in the tay Ray got home with a cleek. The hunker guarding the seventeenth green was carried in two by Vardon, Ray, Duncan, and Fleed, although the lie of the ground is uphill all the way and the distance from fee to flag is 464 yards. Inlevel, it is becoming very difficult to keep in eye on the hall as if some along, on hese prodigious journeys. Not amany years ago it required a drive and a bras my to reach the home green. Now the arond shots, almost without exceptions,

In driving he was invariably a good many yards in front of his opponent, and he exhibited greater -close, a-change came-over-the-game----At the fifteenth hole, Vardou approached to within about a yard of the hole, and ran ... in the putt for a splendid 3, by which-he was able to reduce the Scotsman's advantage to 1 hole, and a bunkered second by Braid at the sixteenth saw the match at even with 2, to play. In that staff it come to the home green, where Braid's putting was at foult, and he lost the match by 1 hole. Herd, Combe Hill, and Taylor, Mid Surrey, were not playing in anything like their real form; but the Scotsman was rather the better of the two, and won by S and 2. George Dun-Oxley, the English captain who, two: days previously, had won £50 in a tournament at Camuro, -- 4 and 2. The Scot vas at the top of his game; Ray's driving was not straight, -he was frequently in the rough from the tee, and his puting lacked accoracy. James Hepburn. 80 Degrees in the City. A heat wave again visited London yesterday, says the "Standard" of June 20, and the temperature in the City rose to sodeg, in the shade. This is the highest temperature registered in London this month, though on Chestnut Sunday (May 12) the mercury rose to over 81deg. in the sularbs. The morning yesterday was remarkably fine, and there was not a cloud to be seen till about ten o'clock,

when the weather suddenly changed, and thunderstorm seemed imminent. Oal few drops of rain fell, however, and the sky soon cleared. The afternoon was oppressive, and the thermometer showed even higher figures than in the morning. The following table gives the readings. for the day as taken from the records of Messrs. Negretti and Zambral Holbotu. In the heart of the City the readings

would be rather higher:-

The temporary drop in the temperature at noon is to be accounted for by the overeast sky at that period. In the provinces the south-east coast

OPTICAL ILLUSION OF BLACK CLOTHES.

Professor's Tests.

How Black clothes decrive the eye, often to the advantage of the weater, was explained recently by Professor Stirling. were staying at Garland's Hotel, Suffolk- F.R.S., at the Old College of Science of the British Optical Convention upon

> "My advice to a lady or gentlema. siderably to one's apparent bulk." Pro fessor Stirling demonstrated the point b exhibiting simultaneously white figures c a black ground and black figures on a whiground. Although all the figures were t same size those in white upon bla appeared to have much greater dimension Working upon this illusion, I refess Stirling suggested that notices printed in a limited apace in white upon black were more emphatic than the ordinary black

upon white. Illusions, said Professor Stiring, were not necessarily abnormal. The reverse was the fact in many cases. One need not go so far as to assume that men habitually erred or that illusion was to be regarded as the natural condition of mortals, but most people were on occasion subject to illusions which had their power in normal mental life, and therefore fell within the province of the physiologist as well as the psychologist.

Pictorial art was based on illusion, and Kleber the great majority of mankind did not see Decide one fraction of what the vision carried to the imagination.

During the evening Professor Stirling Vigila explained a variety of optical illusions, Peiko including the after effects of seen move- Donde ments and entasis, or convexity in curvature. He demonstrated how the Greek architects had realised the existence of enthsis and had constructed their horizontal beams in convex form in order to remove the apparent concave appearance, and had [* Sty given to the pillars on the Parthenon and other ancient buildings just such a bulge as was necessary to destroy the creatic effect of a series of parallel columns

Finally in dealing with coloured shadows | Mous Professor Stirling demonstrated the great Mane difficulties that occasionally beset the designers of dress materials. Recently in Manchester, he stated, a dispute arose between a designer and the weavers open the | Em appearance of a pink shade in some finished | Gnz material. The dispute would have ended Titis in a lawsuit had not a scientist demonstrate Jam ed the fact that the existence of pink was Tois merely an illusion produced by a certain the High-street the water rose to the arrangement of other colours, and that no Niir colours had been introduced except those

The average tonnage of the ships of Ca several of the principal lines using the Port of London has risen from 1861 in the year | Ma 1860 to considerably over 10,000 at the Pat present time. The trade, too, of the Port of London has consistently increased from about six million tons in 1860 to over eighteen millions. In spite of all this there has been an dock extension work for over a generation. Now the matter has become urgent and imperative of the continued prosperity of London, and the Port of London Authordy have embarked upon | Cia scheme that will involve an expenditure Da of fourteen million sterling.

in a strong combination to cope with Great Britain are every day receiving more powerful blows which, it is hoped, will ultimately lead to complete disillusionment, for not only does the name and fame, the prestige and the general standing of Great Britain stand to-day higher than ever with the great Over-Dominions that make up the British Empire but the great European Powers never were more friendly disposed towards the United Kingdom and the Empire. The Naval Estimates, however, are imperative necessities, for it certainly is a fact that the best way to avoid war is to be fully prepared for it Later, we hope to discuss in detail some of the proposals embodied in the Supplementary Estimates just
